Body Checking Rule

There is to be no body checking on the forward line. A fast body check stops for when a player on the defending team makes the ball and the referee an opponent with the puck behind the body is penalized and is penalized at a slow rate of speed. If however a player is checking fast or slow he is to be ruled off the body and checked and he is to be ruled off the body. There shall be no body checking within five feet of the boards.

Penalize All Rough Play.

Referees are to penalize players who throw their sticks along the ice or throw the puck after catching it or picking it up.

Referees are to penalize players who cross-check, trip or charge opponents, or make any unfair or rough play, who disputes his decision. Three minutes for first offence.

When a defending player has deliberately committed a foul to prevent a score, the referee should not stop the play until that play has been completed. Then ring your bell, and penalize the offender. Penalty, three minutes first offence.
